*Welding & Electrical Services is an authorised Lincoln Service Agent & Warranty Repair Station. Our qualified team are factory trained on the full range of Lincoln products. We have full access to Diagnostics equipment and software upgrades to all Invertec & Power Wave equipment. We can provide minor repairs to major rebuilds of all brands of welders & generators, including an in-house testing capability of up to 1000+Amps.*

*We specialise in all Submerged Arc Equipment, Single & Paralleled power sources, Boom & Self Propelled, Single & Twin Wire. WEG Generators & Automatic Voltage Regulators are available ex-stock. We service, repair and rebuild all Power Generators, Alternators, standby & mobile generators including on-site testing. Plus we carry a range of new and used welders and generators in stock.*

*Welding & Electrical Services is part of the*
